Re: Fayette Street Streetscape Project

Residents of the 300 and 400 Blocks of Fayette Street:

We are providing the below project timeline for your information. The City will conduct a pre-construction meeting with the residents before the general contractor begins their work. Washington Gas will be performing utility work in advance of the Streetscape Project work and they will be contacting affected residents directly.

If you have any questions please contact the City's project manager, Daphne Kott at 703-746-4055 or daphne.kott@alexandriava.gov.

Fayette Street Streetscape Project – Timeline.

March 2018 - Construction plans were completed.

March 2018 - Plans sent to Washington Gas for conflict review.

April 2018 - Plans provided to general contractor for pricing.

April - July 2018- Washington Gas will be replacing and converting service lines.
Washington Gas' design and construction will take approximately 3 months.

July 2018 -December 2018- Construction of Streetscape improvements, duration of approximately 5 months.

December 2018 -Dominions Energy will install new utility poles and relocate their lines

January 2019- Other utilities will be relocated to new poles

February 2019 -Dominion Energy will remove abandoned poles.

March 2019 - Contractor will perform final restoration as required by utility pole removals
