Canfield, AIA <a href="mailto:tom.canfield@alexandriava.gov">tom.canfield@alexandriava.gov</a> Robert Kerns, AICP, <a href="mailto:robert.kerns@alexandriava.gov">robert.kerns@alexandriava.gov</a> Gary Wagner, RLA, <a href="mailto:gary.wagner@alexandriava.gov">gary.wagner@alexandriava.gov</a>		

## **I. SUMMARY OF ISSUES**

Bright Horizons has submitted a special use permit to the City for a day care facility with 166 children and 34 staff to occupy approximately 13,000 square feet of floor space at 1900 Jamieson Avenue. The hours of operation will be 7am to 6pm, Monday – Friday. A portion of this space is currently occupied by the Carlyle Club. The Carlyle Club’s lease expires in January and they are looking to occupy a new space at the Helicopter Association building at 1920 Ballenger Avenue. The day care facility wishes to use an existing pocket park on the west side of the existing building for a playground. Any change to the pocket park requires review and approval by the DRB. Currently the open space consists predominantly of a large grassy area, with some landscape beds along the west edge of the space. Concurrently with this review, staff is reviewing an administrative special use permit for the day care use in the building. One of the conditions that staff will impose is the ability for the public to use the playground when not in use by the day care facility. Staff has no issues with the proposed playground at this location and recommends approval by the DRB, with some suggested changes.

## **II. PROJECT DESCRIPTION**

### ***Background***

The pocket park is essentially a green space located between a 5-story building (1900 Jamieson Avenue) to the east and a 10-story PTO office building to the west. The park was originally designed as a passive park, and consists of a lawn panel with plantings along the western edge. The space is not used intensely because there are essentially no amenities in the park.

### ***Project Details***

The pocket park is located on the west side of the existing building where the day care operation will be located, and is approximately 6,800 square feet in size. The applicant intends to provide a 5 ft high fence to enclose the park with gates that will be closed to the public during hours of operation, but will be open to the public thereafter. A variety of playground equipment will be provided for the various age groups that will offer a variety of experiences for the different age children.

## **III. STAFF ANALYSIS**

In general, staff is supportive of the playground at this location. The current park is underutilized and the playground will offer a place for other children in the neighborhood to play after day care hours and on weekends. However, staff has a few concerns with the design of the playground, and recommends the following changes:

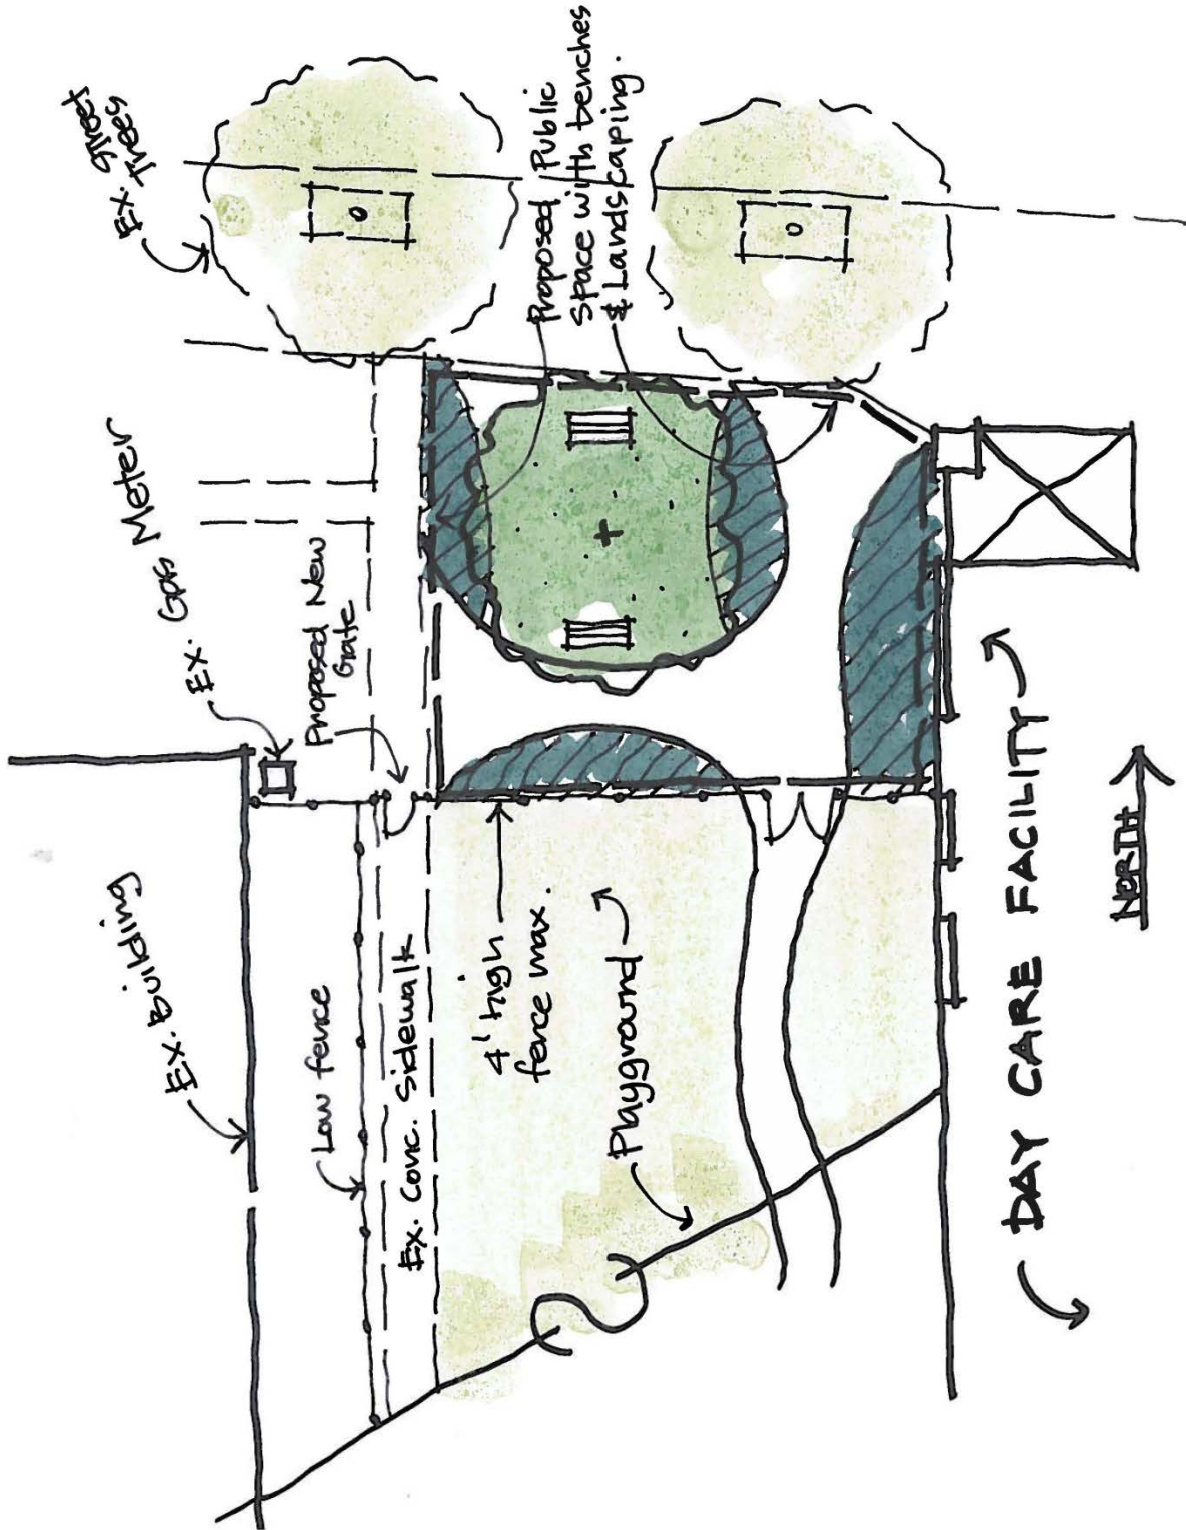

- Relocate the fence along the public sidewalk back to allow some public space. It is suggested that the fence be moved back beyond the existing gas meter on the adjacent building. See attached sketch.
- Reduce the size of the fence from 5 feet proposed to between 3 and 4 ft. A 5-foot-high fence seems to be excessive and would privatize the space.

- Place the existing bench that is currently in the park along the public sidewalk and provide landscaping between the fence and the bench. Provide another bench facing the playground.
- Provide a low fence along the existing plantings along the west edge to protect the plantings from children playing.
- Add another gate where the fence crosses over the existing concrete sidewalk.

#### **IV. CONCLUSION**

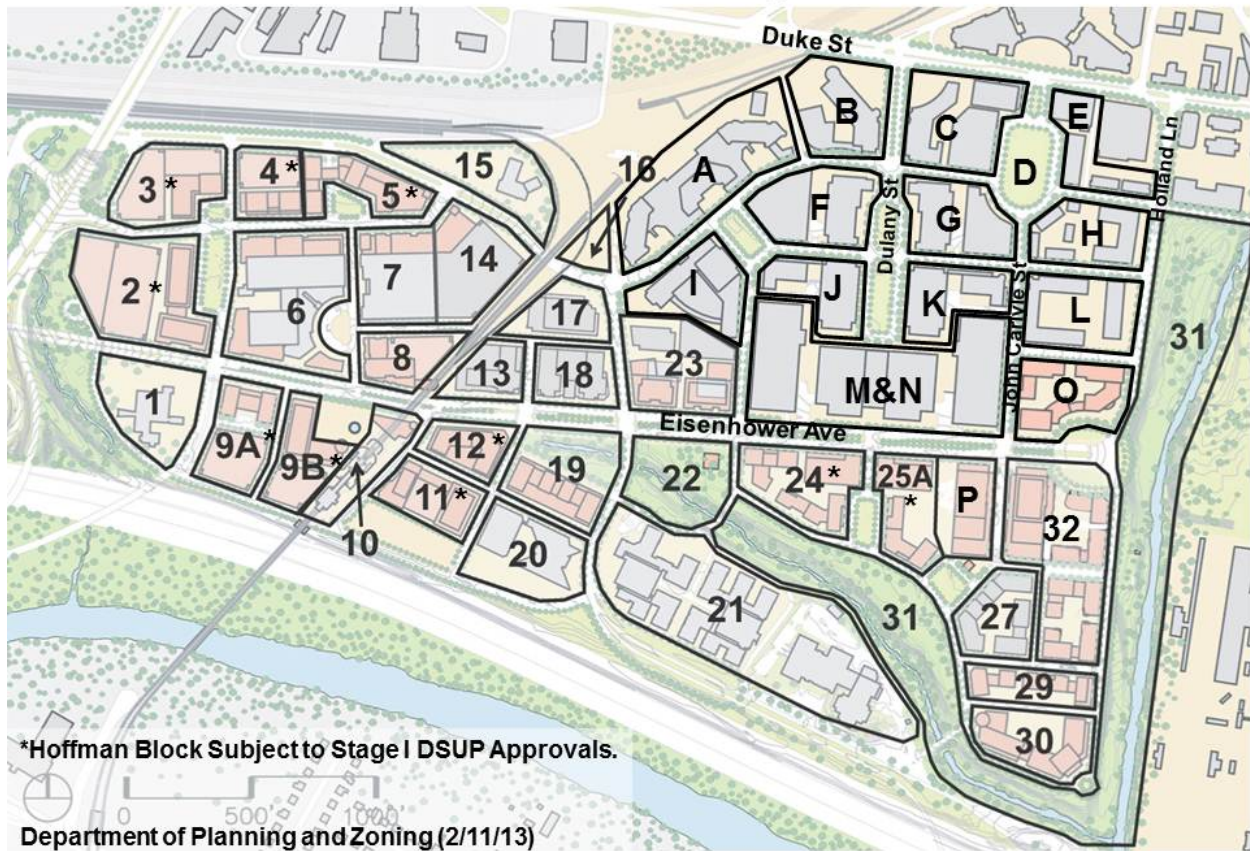

Staff recommends approval of the playground, subject to the changes mentioned above.

DESCRIBE THE REQUEST BRIEFLY: CONVERT THE GREEN SPACE TO A PLAYGROUND FOR THE CHILD CARE CENTER & FOR PUBLIC USE AFTER HOURS & WEEKENDS.

The undersigned hereby attests that all of the information herein provided including the site plan, building elevations, prospective drawings of the project, and written descriptive information are true, correct and accurate. The undersigned further understands that, should such information be found incorrect, any action taken by the Board based on such information may be invalidated. The applicant, if other than the property owner, also attests that he/she has obtained permission from the property owner to make this application.

**Note: Per condition #67 of the Carlyle SUP #2253, as amended by SUP #2007-0094, all applicants will be responsible for the costs associated with DRB review of the application. Fees are determined based upon the number of applicants per hearing. Applicants will be notified by Planning and Zoning staff of the amount owed after the filing deadline has passed and the agenda for the hearing has been finalized. Payment is expected prior to the request being acted upon by the DRB.**
