Background

In 1997, City of Alexandria's City Manager and Superintendent of Alexandria City Public Schools (ACPS) adopted a Memorandum of Understanding (MOU), which outlined the shared maintenance roles and responsibilities for the two organizations. While this agreement was instrumental in streamlining many duplicate services and efforts; both organizations mutually agreed that the 1997 MOU contained numerous ambiguous areas; particularly in ACPS and the Department of Recreation, Parks & Cultural Activities (RPCA) shared facilities.

After identifying the 1997 document shortfalls; a City internal work group began to meet quarterly with the hopes of developing a broader and more inclusive agreement. In 2006, during the City Council Budget Hearings, the Council proposed changes to the existing structure of maintenance responsibilities at the public schools. The proposal focused on developing better communications between RPCA, Transportation and Environmental Services (T&ES), and ACPS. In 2007, the working group developed a plan that enabled ACPS to reassign their current grounds maintenance employees to the City, which reduced ACPS's obligation to grounds maintenance.

By working with ACPS, the City gained additional efficiencies and provided a higher level of maintenance for each school. A revised document was adopted in 2012. Despite the improved language and clarity in the agreement, the subsequent document did not delve deeply enough into the details regarding service levels, service indicators and triggers, measurement methods and budgetary roles, responsibilities and procedures. In addition to the aforementioned shortcomings; the 2012 agreement did not address the current conditions, repurposed facilities or deferred maintenance that occurred since the original 1997 agreement. A new work group was formed in early in 2013 to address the perceived deficiencies in the 2012 agreement. To increase the depth and prospective of the proposed addendum, the work group was assembled with staff from RPCA, TE&S, DGS, and ACPS.

Note: DGS is the Department of General Services, City of Alexandria.

Background (Continued)

The 2014 MOU updates reflect efforts to eliminate discrepancies, updating property description with new data, incorporating omissions or deficiencies, and establishing procedures to ensure continual upkeep which reflect changes in actual field conditions or administration.

Upon acceptance of this updated MOU; it is important to establish that this agreement will need annual reviews and be updated and modified as necessary to continue its accuracy and functionality. The 2014 update builds upon the 2012 template; however the improved document addresses each facility as a whole, while detailing in broader scope the maintenance responsibilities of RPCA and ACPS respectively as related to each facility. In addition, the 2014 updated MOU addresses the roles and responsibilities of three City departments (RPCA, DGS and T&ES) with ACPS, while incorporating aspects of the Eco-City Charter. Finally, the 2014 updated MOU incorporates RPCA Recreation Services' Shared Facility Use Programming.

How to Use This Document

Facility

This document is arranged alphabetically according to the facility name (except the two facilities at the end of this document). For each facility, there is a floor plan delineating which spaces are used solely by ACPS and RPCA and which spaces are shared. The chart on the right defines which agency is responsible for maintenance elements required within the delineated spaces. Each page also includes text that describes the facility in greater detail.

Property Line

Graphic: Landscape Service Areas

City Location Map

Facility and Outdoor Maintenance and Use Definitions

Interior Building Envelope

The interior envelope includes floors, drywall, paint, interior fixtures, gymnasium furnishings (goals, nets, rims, wall padding), casework, appliances, duct work, sound systems, shades, doors, hardware, alarm systems, and IT systems.

Exterior Building Envelope

The exterior envelope is defined as the structural components of the building, including roof, walls, doors, hardware, windows and foundation. It also includes ceiling, insulation, electrical system, plumbing, HVAC, roof and roof drainage systems, and exterior lighting fixtures attached to the building.

Custodial Services / Supplies

Custodial services include the regular cleaning, supplies, and upkeep of the facility and custodial services for set up / take down for special events. The level of service must meet the program capacity engaged at the facility. Green cleaning methods are to be employed in the cleaning of facilities.

Solid Waste / Recycling

T&ES is responsible for solid waste/recycling removal. Solid waste/recycling includes the removal of trash and recycling items from dumpster areas to the appropriate disposal location.

Litter Clean-up

Litter clean-up involves the removal or disposal of trash, debris, and items left from events taking place at a shared facility. It is the user's responsibility to clean area from daily litter, special events, sports groups and other users.

Asphalt/Concrete Repairs

Asphalt and concrete repairs include minor patches to existing asphalt and concrete infrastructure, filling of potholes, and emergency repairs. These repairs are quick fixes and are not expected to last longer than a year. This type of maintenance does not include repairs to the subgrade or remilling of the existing surface. Sidewalks and curb and gutter within street right-of-way will be maintained by T&ES. Each agency is responsible for repairs on its own property. Maintenance of concrete/asphalt on ACPS property is the responsibility of ACPS; maintenance of concrete/asphalt on RPCA property is the responsibility of RPCA and T&ES. ACPS and RPCA sites are being included in the City's pavement management system.

Facility and Outdoor Maintenance and Use Definitions (Continued)

Site Lighting

Site lighting maintenance is the necessary upkeep of all lighting associated with the facility that is not owned by Dominion Power. This includes bulb replacement, fixture repair, painting and replacement if necessary. Responsibility of lighting maintenance is assigned to GS, ACPS, or T&ES as per Maintenance Responsibilities Chart provided in this document, shown under each facility listing. “Grounds Lighting” refers to area lighting including parking lots, whereas “Exterior Building Envelope” concerns the building elevations and rooftop including exterior wall mounted lighting.

Interior and Exterior Graffiti Removal

This involves the removal of graffiti on interior and exterior surfaces of facilities and on playgrounds. Refer to Maintenance Responsibilities graphic at page following each facility for agency responsibility.

Stormwater Facilities and BMP’s

Each agency is responsible for BMP maintenance on its own property. T&ES will assist with assessment of all stormwater facilities and BMP’s. Attachment A contains a list of ACPS maintained and City maintained BMPs.

Sanitary Sewer

T&ES will be responsible for the sanitary sewer system to the service connection. General Services and ACPS will be responsible for all sanitary sewer lines out to the main line connection, including the tap, for the respective buildings.

Hydrants and Fire Lines

T&ES will be responsible for maintenance of all hydrants in the street right-of-way. Any and all inspections, maintenance/repairs, or testing on hydrants located on ACPS and RPCA property are the responsibility of the respective agency (ACPS or RPCA). In addition, all private secondary lines to the service connection are the responsibility of the agency (ACPS or RPCA).

Life and Safety Systems

Sprinkler and fire alarm systems, where stand alone, shall be maintained by the agency. Where systems serve both facilities, refer to individual facility pages in this document.

Shared Use Spaces

Shared use space refers to ACPS and RPCA facilities space or fields that are formally requested and scheduled in advance for use by the non-owner agency. Each shared use space is managed by the owner of the space.

Facility and Outdoor Maintenance and Use Definitions (Continued)

Mowing Operations

The schools sites will be mowed at frequencies prescribed in their assigned level of service, April through October depending on weather conditions and the condition of the individual sites. Every attempt will be made to conduct mowing operations before the school day starts.

Leaf Collection

Leaf collection will begin with City scheduled "Fall cleanup" removal of leaves during mid-November to the end of December with additional cleanup at January-February. Collection activity will be conducted according to level of service assigned to each site; however, the total number of services any per year will not exceed two (2). Every attempt will be made not to disrupt school activities.

Snow Removal

Refer to the City's Snow Plan (current edition) for policies and procedures describing storm ranking descriptions, area prioritization (including ACPS sites) and other information. RPCA and T&ES are jointly responsible for City's snow removal in accord with the City's Snow Plan.

Winter maintenance programs will typically take place December through February or other times when winter weather is in the forecast. The snow removal plans for each school are depicted as revised in March, 2014 on the following pages. The parking areas will be maintained in accordance with the 1997 City/School Facilities Use and Maintenance & Service Agreement, and/or its successor(s).

Level of Service

Level of service is designated by a numeral between one and five, whereas one is the highest level of service and five is the minimum level of service. RPCA and ACPS, through a series of work sessions, have mutually agreed upon a specific level of service for each of RPCA's three "care" categories: 1) Turf Landscaping Maintenance (Includes natural turf athletic fields), 2) Horticultural Maintenance, and 3) Tree Care. Refer to page 69 through page 74 for Level of Services Matrices.

Synthetic Fields

Synthetic turf field maintenance procedures are complex and vary per field due to specific manufacturer and selected systems. Because of this complexity, the maintenance of synthetic fields are not addressed in this MOU; it is covered under a separate agreement between ACPS and RPCA. At the time of preparation for this MOU, the Synthetic Turf Field MOU between RPCA and ACPS is not yet completed. In the interim period prior to implementation of the Synthetic Turf Field MOU, each agency is responsible to maintain their own synthetic fields.

Athletic Courts

Athletic courts such as basketball courts, tennis courts, and other courts that are shown within ACPS property and designated under RPCA landscape responsibilities typically include weed control and edging only.

Facility and Outdoor Maintenance Use Definitions (Continued)

Tree Services

Pruning and tree maintenance will be provided by RPCA in response to request and subsequent priority assessment - refer to Tree Care Matrix. During storm events RPCA's first priority is to provide arterial road access for health and safety concerns for the general public. Storm damage clean-up at schools will be assigned a priority status depending on damage. Any damage that inhibits school operations will be assigned top priority. All other storm damage will be attended to as soon as possible.

Horticulture Services

RPCA will provide maintenance of landscaping areas per selected level of service indicated below (refer to aerial images per school/facility). Any increase to landscape areas or additional services (such as new plantings, not replacements) requested by ACPS over and above that which is documented in this MOU will be separately funded by ACPS.

Litter Can Service

T&ES will provide litter can and dumpster services at designated receptacles. Litter can service at each site will be re-evaluated as needed around the school perimeter including parking lots, and walkways. Service will be provided daily, twice weekly or upon inspection every 5-7 days, depending on the level of service. All trash cans in the school and courtyards will remain the ACPS's responsibility to empty, maintain and service. Plans showing ACPS maintenance boundaries are included on the following pages.

Capital Improvement Projects

ACPS acknowledges RPCA's routine grounds maintenance (mowing, occasional cultural practices such as aerification, and top dressing) will eliminate certain natural turf deficiencies within athletic fields, but capital investment (CIP) is required periodically in order to prevent fields from deteriorating to conditions which may impose safety hazards on field users. Potential renovations requiring CIP include blanketed heavy top dressing application (surface correction), sod replacement and repair, leveling, top soil amendment, major irrigation repair (pump replacement, redesign/construction), soil amendment, surface and sub-surface drainage control, and other procedures. ACPS is responsible to provide capital investment to improve ACPS fields where and when it has been determined (by ACPS/RPCA mutual consent) that the field has deteriorated to a condition wherein user safety is compromised. RPCA recommends ACPS schedule capital investment for field improvement on a periodic basis - based on level of use. High-use fields support regularly schedule team activities (seasonal) and may be subject to compliance under governing athletic organizations or other agency regulations/standards. RPCA agrees to provide technical assistance to ACPS Operations and Maintenance Director in developing appropriate project scopes and approximated cost estimates per school facility/site location as needed by ACPS for preparation of CIP proposals.

Levels of Service

Turf Landscaping Maintenance (Continued)

ⁱ Mowing every 5 days, no more than 1% of surfaces have weeds, athletic fields are pristine, trees and shrubs are pruned monthly, beds are updated frequently. State-of-the-art maintenance applied to a high-quality diverse landscape. Associated with high-traffic urban area, such as public squares, malls, government grounds, or college/university campuses.

ⁱⁱ Includes surfaces: Sweeping and cleaning frequency as such that at no time does accumulation of debris distract from look or safety of the area.

ⁱⁱⁱ Mowing every 10 days, weeds represent no more than 5% of surface, athletic fields are done weekly, trees and shrubs are done seasonally, beds are changed out twice a year. High-level maintenance. Associated with well-developed public areas, malls, government grounds, or college/university campuses. Recommended level for most organizations

^{iv} Mowing every 10-15 days, weeds represent no more than 15% of surface, athletic fields are done as needed for athletic events. Moderate-level maintenance. Associated with locations that have moderate to low levels of development or visitation, or with operations that, because of budget restrictions, cannot afford a high level of maintenance.

^v Depends on climate. Areas with more than 25 inches per year rely on natural rainfall. Areas with less than 25 inches per year have some form of supplemental irrigation, normally 2 to 3 times per week

^{vi} Mowing every 12-18 days, weed control limited to legal requirements for noxious weeds, athletic fields are done as needed for athletic events, trees and shrubs are done on an as needed basis for safety, no beds are done, maybe wild flowers. Moderate to low-level maintenance. Associated with locations affected by budget restrictions that cannot afford a high level of maintenance.

^{vii} Turf Care: Low-frequency mowing schedule based on species. Low growing grasses may not be mowed, high grasses receive periodic mowing. Weed control limited to legal requirements for noxious weeds.

ⁱ RPCA is responsible only for areas defined as “Front of School” on associated aerial maps included as part of this MOU. The standards below apply to “Front of the School” and shall represent the conditions upon completion of each site visit.

ⁱⁱ August Mulching includes the following: 1) Beds edged, 2) Old mulch is removed, 3) A 2-3” new layer of shredded pine bark mulch is added, and 4) New mulch is gently tamped down. April/May Mulching includes only the addition of 0.25”-0.50” of new mulch for color and appearance. No bed edging. No removal of old mulch. No tamping.

ⁱⁱⁱ Pruning: All shrubs and hedges at the front of the school will be pruned at the number of times per year defined by the Level of Service contracted. The amount of growth pruned from the plants and the timing of the pruning will vary depending upon the Level of Service contracted. Selected species of ornamental trees, such as Crape Myrtle, are to receive annual pruning to stimulate flowering.

^{iv} Leaf removal- "Fall cleanup": 1) Mid November to the end of December all fallen leaves removed, 2) January- February additional cleanup.

^v E. Enhancements: 1) Seasonal Color changes- especially in the Spring, Fall and Winter, 2) Addition of Containers with seasonal color changes, 3) More detailed pruning, 4) Higher density of plantings, 5) Fertilizing/watering as needed, 6) Additional mulching (2 times a year), 7) IPM- Integrated Pest Management used.

^{vi} "Cleanliness" is trash and litter pickup. No trash visible in the front of the school. No trash visible within 25' of any door on the sides/back of the school. No more than 1 piece of trash along a 100' site line, nor in an 25' by 25' area..

^{vii} Weeds: Weed coverage upon completion of the Site Visit determined by the Level of Service contracted. No weedy vines overtaking ornamental plants following any Site Visit.

^{viii} Density: Density of plant coverage upon completion of the Site Visit determined by the Level of Service contracted. Plants shall be full and healthy, with any dead plants removed.

^{ix} Neatness: Beds edged. Sight lines open. No shrubs or tree branches blocking walkways or entrances.

^x Level 1: Level 1: 100% weed-free landscape beds. Mulched twice per year. Site visit every 10-14 days, so weeds should usually not be more than 2-3” tall between visits. Full, densely planted landscaped beds with seasonal color changes.

^{xi} Level 2: Clean, weed free landscape beds; mulched once per year. Crew visits every two weeks so weeds should never be more than 3-4" tall between visits.

^{xii} Level 3: 80% weed-free landscape beds. Mulched once per year. Site visit every 15-21 days, so weeds will often attain heights of 8-12” between visits.

^{xiii} Level 4: 70% weed-free landscape beds. Mulched once per year. Site visit every 22-45 days, so weeds will often be taller than 12” between visits.

^{xiv} Level 5: No landscape maintenance. Native Plant Conservation Zones or areas with limited public access.

Five (5): Minimum^x	NA	NA	NA	NA	NA

Levels of Service

Tree Care Maintenance (Continued)

ⁱ It is the intent of this MOU to provide tree maintenance services in areas near buildings, parking lots, athletic fields, walkways, and other activity areas. Tree maintenance services (including those described in item #7 below) will not be provided in wooded/natural areas, low-maintenance zones, Native Plant Conservation Zones, or other similar areas.

ⁱⁱ Tree Assessment - An evaluation of all trees within the area covered by the MOU, to identify the presence of hazards that need to be resolved and to determine the need for other tree maintenance activities that are to be performed in accordance with the contracted Level of Service.

ⁱⁱⁱ Emergency/Hazard Response: RPCA will provide removal of safety hazards and downed trees/limbs which block access to facilities or the flow of traffic at all schools. Emergency response at schools will be prioritized in coordination with other RPCA emergency response requirements. (Levels 1, 2, and 3)

^{iv} Tree Removal - Trees which are dead or in severe decline and are located in areas commonly used near buildings or activity areas will be removed from each school site annually. Trees which present a low risk hazard due to their location away from high activity areas will not be removed. (Levels 1, 2, and 3).

^v Selective Tree Maintenance -- RPCA will perform maintenance that is necessary to provide clearance for pedestrian or vehicular traffic, or to address tree-related maintenance issues such as safe buffer distances between trees and structures. (Levels 1 and 2).

^{vi} Five-Year Rotational Maintenance -- RPCA will perform maintenance activities to improve the health, structure, and appearance of all trees within the area covered by the MOU (except as noted in #1 above), on a pro-active five-year rotation cycle. A schedule of school sites whose trees are to be maintained each year shall be developed by ACPS and RPCA, so that each site is maintained once every five years. (Level 1).

^{vii} Maintenance pruning activities shall be performed in accordance with ANSI A300 (Part 1) standards (American National Standard for Tree Care Operations - Tree, Shrub, and Other Woody Plant Maintenance - Standard Practices - 2008), and may include a) crown cleaning, b) crown thinning, c) crown raising, d) crown reduction/shaping, and/or e) crown restoration, as defined therein.

^{viii} Planting of new trees, maintenance of new trees, watering, fertilization, or any other services not specified as the responsibility of RPCA through this MOU, may be provided only through a separate agreement between ACPS and RPCA, at an additional cost to be mutually agreed upon.

^{ix} Level 4: Secluded areas, undeveloped areas, or areas with restricted or limited public pedestrian access but not classified under Level 5 (below).

^x Level 5: Native Plant Conservation Zones, and Natural Resource Areas.

Interdepartmental City Contract

Memorandum of Understanding

WHEREAS, The City of Alexandria and the Alexandria City Public Schools are fortunate to be able to provide many fine public facilities for uses by its residents and students; and

WHEREAS, many of these facilities were constructed for the specific purpose of either public education or recreation, but have the capability of offering a much broader public use as joint community facilities; and

WHEREAS, the Alexandria City Manager and the Alexandria City Public School Superintendent jointly have agreed that it is in the best public interest of both the City of Alexandria and the Alexandria City Public Schools to work together to ensure the maximum feasible public use of these facilities for educational and recreational purposes; and

WHEREAS, the Alexandria City Public Schools and the Department of Recreation, Parks and Cultural Activities, Department of General Services and the Department of Transportation and Environmental Services of the City of Alexandria agree mutually to provide services related to their specific areas of responsibility for City facilities and activities.

NOW THEREFORE, the Alexandria City Manager and the Alexandria City Public Schools Superintendent do hereby enter into the following agreement for the cooperative use, management and financial support of these school and community facilities. This memorandum of understanding is intended to set forth the cooperative understanding between the parties, but is not intended to comprise a contract or other legally enforceable instrument.

I. PHILOSOPHY AND SITUATION

- A. The Purpose of this agreement is to provide a structure for the broad and cost effective use and maintenance of all ACPS and City owned and operated facilities in support of the community use of these facilities. In addition, the purpose of this agreement is to provide detailed understanding and structure for cost effective grounds maintenance associated with school grounds, open space, and park property to provide greater efficiency to the City of Alexandria taxpayers.
- B. It is recognized that the Alexandria City Public Schools and City agencies are limited in financial, personnel, and facility resources to support their respective programs. Therefore, an agreement establishing mutual maintenance and use of these facilities provides maximum effective utilization of all public/community facilities.
- C. As new projects are needed or initiated, all parties shall coordinate and update the MOU accordingly via an addendum approved by the City Manager and ACPS Superintendent.

Interdepartmental City Contract

- D. The Department of Recreation, Parks and Cultural Activities shall provide all outdoor grounds maintenance in the designated areas found in this agreement. ACPS will coordinate ACPS's landscape maintenance contractor's miscellaneous landscape work which is outside the scope of this MOU, to avoid conflicts with RPCA's work herein described. RPCA is not responsible for ACPS's contractor's work.
- E. The existing City/Schools maintenance facility work group as appointed by the City Manager and the ACPS Superintendent, respectively agree that this oversight committee will address any grounds maintenance /snow removal issues that may arise, and will develop strong communication avenues to communicate with the principals, PTA and community.
- F. The following avenue of communications is herewith established concerning outdoor grounds maintenance as shown in the designated areas of this agreement:

The ACPS Operations and Maintenance Director (ACPS-OMD) is the ACPS administrator of this agreement. As such, he/she is the effective point of contact between ACPS and the City Departments concerning administration of this MOU: ACPS/RPCA outdoor grounds maintenance portion of this agreement. The schools' principals (and/or staff) of ACPS herein designated facilities shall contact the ACPS-OMD concerning any/all grounds maintenance for their respective schools. APCS agrees that RPCA will respond only to grounds maintenance requests made by the ACPS-OMD in accord and compliant with this agreement.

RPCA Park Operations division chiefs (overseeing grounds maintenance and snow removal) will be RPCA's effective point of contact concerning any/all grounds maintenance on ACPS properties in accord and compliant with this agreement.

- G. The City/School maintenance facility work group shall attempt to resolve all issues relating to the joint use of the facilities as covered by the guidelines contained herein.
- H. This Memorandum of Understanding supersedes all previous documents.
- I. ACPS shall be responsible for the electrical and water costs associated with each site. ACPS shall be responsible for the litter pick up at all ACPS sponsored events. Department of Recreation, Parks and Cultural Activities shall be responsible for litter pick up at all Department of Recreation, Parks and Cultural Activities sponsored events.

Interdepartmental City Contract

The Department of Transportation and Environmental Services shall empty the designated trash cans identified at each site and be responsible for daily litter pick up of the grounds with the understanding that there is a coordinated effort to keep the grounds clean. If additional cleaning or trash services are required for special School events the costs will be determined before the event and paid for by ACPS.

II. ADMINISTRATION OF THE AGREEMENT

- A. The City Manager, the ACPS Superintendent and their respective designees are responsible for the proper use, supervision and maintenance of all public facilities under their control in accordance with this agreement..
- B. A City/School Staff Facilities Committee shall manage the routine administration of this agreement. The Committee will meet at a minimum on an annual basis and shall be composed of staff from City agencies and the Alexandria City Public Schools as appointed by the City Manager and the ACPS Superintendent, respectively. This committee will be comprised of three (3) representatives from the ACPS, three (3) members, totaling one vote, for the Department of Recreation, Parks and Cultural Activities, and one (1) member with one vote each from the City's Departments of Transportation and Environmental Services and General Services. The Chair and Co-Chair will be selected on a bi-annual (every two years) basis at the committee's first meeting of each even numbered fiscal year. The next scheduled meeting of the City/School Staff Facilities Committee will be held in June of 2015 and annually each June thereafter.
- C. The committee shall attempt to resolve all issues relating to the joint use of the facilities as covered by the guidelines contained herein, and each committee member shall have one vote on any single voting issue. Conflicts related to issues regarding the joint use facilities, which are not resolved by the committee, will be forwarded to the City Manager and ACPS Superintendent for arbitration. If the issue remains unresolved, the City Manager and ACPS Superintendent will forward the issue to the City Council/School Board Subcommittee for resolution.
- D. School principals and Department of Recreation, Parks and Cultural Activities staff will jointly review the condition of the joint used facilities on an annual basis (March).
- E. The ACPS Superintendent and City Manager may establish a rental fee schedule for their respective facilities for approval by the School Board and/or City Council, as appropriate.

Interdepartmental City Contract

III. USE OF FACILITIES AND GROUNDS

- A. This document denotes all facilities that are jointly used and that are available for community use.
- B. The School Division is the primary user of School Facilities, including outdoor fields and shared use recreation center spaces during the normal school day, which should be interpreted to be from school starting time to the end of the formal classroom day plus one hour. During the one-hour period following class, schools will have priority for use of the school facility. During this time should mutual requirements for space occur, the school will make every effort to provide alternate space for the Department of Recreation, Parks and Cultural Activities use. After the one hour time frame, scheduled recreation programs will have priority for all school sites listed on the following page. Department of Recreation, Parks and Cultural Activities programs shall have priority for all recreation center spaces not identified as shared use.
- C. ACPS and RPCA indoor and outdoor facility usage requests for the upcoming fiscal year, must be completed by both parties prior to March 1st. ACPS and RPCA facility use requests must be submitted in writing using each organization's official facility request forms. Each organization's request must include, by location, time-frame providing dates, days, times, and programs or sports activities requested. Final approval or denial by the ACPS School Division and RPCA Recreation Services Division regarding requested use must be completed by May 1st. Each organization must submit a final practice/game schedule prior to the beginning of the season.

Set forth below is the prioritization of agencies/individuals in descending priority-rank, regarding requested use of ACPS Facilities. All inter-governmental agreements, such as the agreement herein between ACPS and RPCA , take priority over community use agreements regarding requested use of ACPS facilities. Prioritized usage of ACPS facilities shall be as follows:

Level I Organizations:

- A. Alexandria City Public Schools activities and programs;
- B. Recreation, Parks, and Cultural Activities sponsored programs - activities planned for ACPS property as per the ACPS and RPCA Share Use Agreement which defines the roles and responsibilities of each agency;
- C. Community use as set forth by the "ACPS Community Use of School Facilities".

Interdepartmental City Contract

- D. The scheduling of the School and City play fields and courts will be coordinated under the following guidelines:
1. The Recreation Services Division of the Department of Recreation, Parks and Cultural Activities does the scheduling of school fields and courts. During the scheduled school days of the school year, activities begin at the end of the classroom day, plus one hour. Scheduling on weekends during the school year, and during the summer months will be at the discretion of the Department of Recreation, Parks and Cultural Activities' Recreation Services Division.
 2. The scheduling of the fields at T.C. Williams High School remains the responsibility of the School Division, but the School Division may schedule appropriate community and recreation activities, including RPCA sponsored activities at these fields, which are consistent with school requirements for the fields.
 3. The scheduling of all other City fields remains the responsibility of the Department of Recreation, Parks and Cultural Activities at all times.
 4. Schools which lack adequate outdoor play fields and courts to support their programs will have priority use of mutually agreed City facilities.
- E. Use requirements should be identified prior to August 1st of any year, with specific hours reviewed and approved by the City/Schools Staff Facilities Committee. Additional City use of the school space or school use of the City space may be designated in any facility by mutual agreement.
- F. City agencies may schedule other school facilities, including classrooms, multi-purposes rooms, gymnasiums, and auditoriums in support of City and community programs consistent with the guidelines set forth in this MOU.
- G. Equipment installed in classrooms may not be used unless specifically approved by the appropriate school official.
- H. Facilities custodial maintenance requirements and responsibilities for joint use facilities programs are identified herein and agreed upon by the City/Schools Staff Facilities Committee.

Interdepartmental City Contract

- I. The normal time for the conclusion of the indoor activities and programs will be 10:00 p.m., or as mutually agreed.
- J. All scheduling of facilities will be reviewed regularly by the City/Schools Staff Facilities Committee to accommodate changes and resolution of conflicts.

IV. RESPONSIBILITY

- A. Whenever a facility is being used, the user group is responsible for:
 - 1. Maintaining adequate discipline at and near the facility.
 - 2. Providing adequate supervisory and organizational plans to support the requirements of the activities being conducted.
 - 3. Security of the School and City owned facilities and equipment.
 - 4. Prohibiting illegal substances or alcohol. Drugs (including alcohol) may not be dispersed or used on school property or within 1,000 feet of a school in accordance with the Safe and Drug Free Schools Act (i.e., Drug Free Zone). Smoking is prohibited on all school property.
 - 5. Prohibiting weapons (including knives). Weapons may not be brought on to school property except by appropriate law enforcement agencies or Department of Recreation, Parks and Cultural Activities property in compliance with Federal and State Laws.
- B. Operations and maintenance—All custodial and maintenance activities will be in accordance with the following provisions;
 - 1. The School Division System shall have custodial responsibility for all school buildings, except full time recreation centers.
 - 2. The City's full-time recreation centers and after school centers shall receive adequate heating and air-conditioning services during their regularly planned programs at night, weekends, and on holidays.

Interdepartmental City Contract

3. The City and Alexandria City Public Schools recognize the need to maintain and upgrade the outdoor facilities so they can properly and safely support the planned activities for which they were designed, and to support easy and cost-effective maintenance. To this end, the City/School Staff Facilities Committee will meet at least annually to determine a long-rang schedule for inclusion of such projects in the Capital Improvement Program (CIP) budget.
4. Incidental damages due to normal wear and tear, vandalism and accidents shall be the responsibility of the owner of each property.

V. FUNDING

1. **Grounds Maintenance Services:**
Grounds Maintenance Services provided by RPCA are divided into three “care” categories: 1) Turf Landscaping Maintenance (Includes natural turf athletic fields), 2) Horticultural Maintenance, and 3) Tree Care - Refer to Level of Services Matrices provided in this agreement above. The current existing level of Turf Landscaping Maintenance provided by RPCA is Level Four (4) “Standard”. The current existing level at Horticultural, and Tree Care Maintenance are at Level Two (2) “High”. These levels follow a new naming system found in this agreement; they are otherwise identical to the prior 2012 MOU levels. Permanent or temporary upgrade to a level of service must be made in one of the following two ways:
2. **Permanent Upgrade to Level of Service:**
If at any time under the exercise of this agreement ACPS determines need to permanently upgrade a level of service under one of the three care categories at a particular school location, a formal request for modification to this agreement must be prepared in writing by ACPS and submitted to RPCA. Any upgrade in service is subject to review and approval under ACPS budgetary process. With joint approval of the RPCA Park Operations Division Chief (Administrator of the MOU Agreement) and the ACPS Operations and Maintenance Director, the modification will be included in the next, biannual update to the MOU agreement.

Interdepartmental City Contract

3. Capital Improvement:
ACPS acknowledges RPCA's routine grounds maintenance (mowing, occasional cultural practices such as aerification, and top dressing) will eliminate certain natural turf deficiencies within athletic fields, but (CIP) capital investment is required periodically in order to prevent fields from deteriorating to conditions which may impose safety hazards on field users. Potential CIP renovations include blanketed heavy top dressing application (surface correction), sod replacement and repair, leveling, top soil amendment, major irrigation repair (pump replacement, redesign/construction), soil amendment, surface and sub-surface drainage control, and other procedures. ACPS is responsible for providing capital investment to improve ACPS fields where and when it has been determined (by ACPS/RPCA mutual consent) that the field has deteriorated to a condition wherein user safety is compromised. RPCA recommends ACPS schedule capital investment for field improvement every six years for high-use fields increasing to a ten year interval for moderate use fields; low-use fields can be assessed as needed. High-use fields support regularly scheduled team activities (seasonal) and may be subject to compliance under governing athletic organizations or other agency regulations/standards. RPCA agrees to provide technical assistance to ACPS Operations and Maintenance Director in developing appropriate project scopes and approximated cost estimates per school facility/site location as needed in ACPS' preparation of CIP (cited above).
4. Additional Service Request: If at any time under the exercise of this agreement, ACPS determines instantaneous need (temporary per event) requiring increased level of service, ACPS Operations and Maintenance Director shall submit a request in writing to the designated Park Operations Division Chief (Administrator of the MOU Agreement). An Additional Service Request will be prepared by RPCA. The request for additional service shall be jointly approved by ACPS Operations and Maintenance Director and the RPCA Park Operations Division Chief. Additional service request shall typically concern a one-time service and must be received by RPCA a minimum forty-five calendar business days prior to the scheduled event or is subject to denial by RPCA due to non-sufficient time. Any additional cost associated with the Additional Service Request shall be borne by ACPS.
5. Establishment of Landscaping Maintenance Services Fees:
Each even-numbered fiscal year, prior to March 1st, RPCA shall prepare and submit a Biannual Cost Analysis to the ACPS Operations and Maintenance Director for review. The cost proposal shall provide current, updated, projected costs to be incurred by RPCA in the performance of grounds maintenance services under this agreement during the next two fiscal cycles. Costs shall include material (equipment depreciation and use of products), fuel costs, labor costs (including benefits), time (including travel and preparation), and administrative costs.

Interdepartmental City Contract

The finalized Biannual Cost Analysis is subject to joint approval by ACPS Operations and Maintenance Director and RPCA Park Operations Division Chief prior to implementation. Through the RPCA cost analysis, if it is determined that projected costs for performance of grounds maintenance services under this agreement exceed the current budgeted allocation, ACPS will either request additional funding under ACPS budgetary process to cover the shortfall, or ACPS will reduce the current base line scope of services necessary to meet the existing budgeted allocation.

VI. PUBLIC INFORMATION

The City/Schools Staff Facilities Committee will prepare, in September of each year, for the City Manager and ACPS Superintendent an evaluation report on the administration of this agreement, which will be disseminated by the City Manager and ACPS Superintendent as they deem appropriate.

Interdepartmental City Contract

VII. ADDITIONAL TERMS AND SIGNATORIES

This agreement is made on this 6th day of November 2014, by and between the Superintendent of the Alexandria City Public Schools, and the City Manager of Alexandria, VA. It formalizes procedures for proper use of the City/Schools facilities and assigns responsibilities for the maintenance and other services for the facilities.

The City Schools and City Departments agree to mutual use and support of school and city facilities provision and services as outlined in the City/Schools Facility Maintenance and User Agreement. The staffs of all agencies involved further agree to meet twice yearly to discuss issues of mutual concern and attempt to resolve conflicts, which may arise from time-to-time.

The use of School and City Facilities by outside community groups will be governed by regular procedures of the School Board and the City Council in granting permits for use of facilities as provided for by the laws of Virginia and the policies and procedures of the School Board and City Council.

This agreement shall be for a two year term commencing on November 6th, 2014. The agreement shall be revised and updated with any proposed changes for review and discussion and approval every two years; provided however, that either party to this Agreement may terminate it upon sixty (60) days written notice to the other.
