Facilitator Worksheet: Activity #3

Talking Points: Email Communication

-
- How does email compare to traditional mail?
 - Is there a danger to sending out too many emails, forcing people to unsubscribe?
 - Is there a system that would enable citizens to only get the emails that pertain to them or their groups or networks?
 - Is email an effective 2-way form of communication between the community and the City?
 - If not, what could be done to enable citizens to use email to better connect with City staff and officials?

Is it more important to
have more crosswalks
or speed bumps

— Notices at Centers
