

**Combined Sewer System and the Long Term Control Plan Update
Community Feedback Form
Public Informational Meeting – June 18, 2015**

Please take a moment to answer the following questions in order to help us make the best use of your time, support each participant, learn from you, and facilitate the most productive outcome.

1. Were the goals of this project clearly explained?
 - Yes
 - No

2. Did this meeting meet your expectations?
 - Exceeded
 - Met
 - Did not meet my expectations

3. What worked well during the meeting and why?

4. What could have been done better during the meeting and why?

5. One objective of today's meeting was to *present and explain the evaluation criteria* used to rank possible Combined Sewer Overflow (CSO) control strategies. Did we meet this objective?
 - Yes Partly No
 Other thoughts:

6. Another objective was to *present and explain the initial ranking* of possible CSO control strategies. Did we meet this objective?
 - Yes Partly No
 Other thoughts:

7. Nine (9) potential CSO control strategies were evaluated, scored, and ranked relative to one another. Do you agree with the City moving forward with further evaluations of the top three (3) CSO control strategies (i.e. *the short list*) in order to select a primary CSO control strategy?

CSO Control Strategy	Rank	Response	Additional Feedback
Separate Storage Tunnels	1	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Storage Tunnel for Hooffs Run; Storage Tank at Royal Street	2	<input type="checkbox"/> Yes <input type="checkbox"/> No	
One Storage Tunnel (outfall not relocated to the Potomac)	3	<input type="checkbox"/> Yes <input type="checkbox"/> No

Public Informational Meeting – June 18, 2015**

8. Although not recommended as primary control strategies, the City recommends further evaluating both green infrastructure and targeted sewer separation as integral complementary strategies. Do you agree with the further evaluation of these strategies as integral complementary strategies?

CSO Control Strategy	Rank	Response	Additional Feedback
Green Infrastructure	8	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Targeted Sewer Separation	9	<input type="checkbox"/> Yes <input type="checkbox"/> No	

9. Do you agree with removing the following CSO control strategies from further evaluations?

CSO Control Strategy	Rank	Response	Additional Feedback
Separate Storage Tanks	4	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Storage Tunnel for Hooffs Run; Disinfection at Royal Street	5	<input type="checkbox"/> Yes <input type="checkbox"/> No	
One Storage Tunnel (relocate outfalls to the Potomac)	6	<input type="checkbox"/> Yes <input type="checkbox"/> No	
Separate Disinfection Facilities	7	<input type="checkbox"/> Yes <input type="checkbox"/> No	

10. Other thoughts?
